

Rolling Shutters Model 500

Security with a Professional Look

If you need access control with aesthetic beauty, our Model 500 Rolling Shutters really fit the bill. They are ideal for openings with a counter top or sill, where you need access during business while still maintaining security.

Whether you choose a model that is lift-up, uses a hand crank, or is motorized, the Model 500 Rolling Shutter is the most preferred solution for business counter openings. Rolling shutters are used for customer service windows, concession stands, and food service windows alike.
