

HOLLOW METAL DOORS

Personnel Walk Through Fire Doors

DESIGN HIGHLIGHTS

- Industrial grade, designed for commercial applications
- Internally reinforced (ribbed option)
- Stiffened and sound deadened by one piece of kraft fiber honeycomb core
- Securely bonded under pressure to both door frames
- Honeycomb is 1" hexagonal cells impregnated with a phenolic resin to resist moisture, decay and rot
- 16 gauge metal frames
- All welded frames are fabricated with floor anchors and wall anchors as required
- Frames are mortised, reinforced, drilled and tapped in our factory for templated mortised hardware
- All knocked down frames are provided with alignment tabs welded to jambs
