## Self-Storage Doors

Commercial Rolling Sheet Doors

### Lockable Mini Self-Storage Doors Get it Done

Our mini roll up metal sheet doors are a great solution for self-storage facilities, concession stands, or any light use commercial area where security is needed. Their simple, industrial design and smaller size are tailored for those who need to “get it done.”

Built with hot dipped, galvanized steel, and your choice of locking mechanisms, this coiling door has no problem securing an area. To ensure easy operation, it uses a heavy-duty axle and counter-balancing system paired with steel oil-tempered springs. Your sheet door will roll up and down smooth and easy every time.

- >> Easy Operation
- >> Long Service Life
- >> No Overhead Tracks
- >> Nylon Strap Guides and Anti-Wear Strips
- >> Curtain Locking Options
