

Operator for Overhead Door

Automatic Overhead Garage Door Opener

Automate Your Bay or Dock Door

Most contemporary overhead doors, whether they are sectional doors or rolling doors, are motorized. Automating a bay or dock door not only adds convenience, but also increases security and safety as well.

American Door's line of overhead door operators are available in a variety of Horse Powers including 1/2 hp, 3/4 hp, 1 hp, 2 hp, and higher. We also offer many control options such as push buttons, key switches, radios, and key pads. Available safety systems include sensing edges, photo eyes, horns, lights, vehicle sensors, and fire safety systems as well.

>> Multi-voltage: Use available power

>> Modular Design: Customize Operation

>> UL325 Approved : Product Safety

>> Contemporary Computer Control Board: Today's Technology
